

RACORES RÁPIDOS EN PVDF: PVP estimado, mejor consultar. Hay stock de casi todo

Los racores en PVDF - son de tipo rápidos y fáciles de montar. Presión de trabajo: 14 bar a 20°C

Características: Excelente resistencia química a fluidos corrosivos como: ácidos, hidrocarburos y ozono.

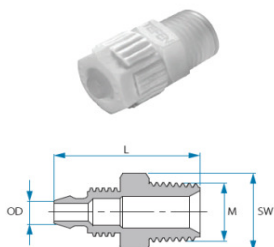

Temperatura de trabajo: Racores: -20°C a + 120°C

Aplicaciones: Fluidos agresivos en la industria.

Hay disponibles muchas más figuras (a consultar) de las que aparecen en esta serie a continuación:

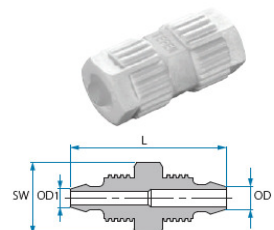

Descuentos standard de estos artículos PVDF, el precio final es muy competitivo. Embalaje por unidad o x 10 ud. en toda la gama
